

BY THE HOUSE OF DELEGATES,

JANUARY 12th, 1865.

Read and 6,000 copies ordered to be printed, (5,000 in English and 1,000 in German.)

ANNUAL REPORT

OF THE

COMPTROLLER

OF THE

TREASURY DEPARTMENT,

FOR THE

Fiscal Year ended 30th September, 1864,

TO THE

GENERAL ASSEMBLY.

ANNAPOLIS:

RICHARD P. BAYLY, PRINTER.

1865.

Officers of the Treasury Department.

COMPTROLLERS.

PHILIP FRANCIS THOMAS, from 10th December, 1851, to 20th April, 1853.

HENRY E. BATEMAN, appointed from 20th April, 1853, to 11th January, 1854.

WILLIAM PINKNEY WHYTE, from 11th January, 1854, to 9th January, 1856.

WILLIAM HENRY PURNELL, from 9th January, 1856, to 8th May, 1861.

DENNIS CLAUDE, appointed 8th May, 1861, to 17th July, 1861.

ABRAM LINGAN JARRETT, from 17th July, 1861, to 8th January, 1862.

SAMUEL SNOWDEN MAFFIT, from 8th January, 1862, to 13th January, 1864.

HENRY HOLLYDAY GOLDSBOROUGH, from 13th January, 1864, to 26th November, 1864.

ROBERT J. JUMP, appointed from 28th November, 1864.

TREASURERS.

JAMES S. OWENS, from 24th February, 1852, to 24th February, 1854.

DENNIS CLAUDE, from 24th February, 1854, to 14th February, 1860.

SPRIGG HARWOOD, from 14th February, 1860, to 4th February, 1862.

ROBERT FOWLER, from 4th February, 1862.

TREASURY DEPARTMENT,

COMPTROLLER'S OFFICE,

ANNAPOLIS, Nov. 26th, 1864.

To the Legislature of Maryland:

In obedience to the third section of the sixth Article of the Constitution, and the ninth section of the twenty-second Article of the Code of Public General Laws, I herewith submit, as Comptroller of the Treasury, the following Report:

The Receipts in detail of the Treasury, for the Fiscal Year ending the 30th day of September, 1864, will appear from Statement "A," appended to this Report, to amount in the whole to the sum of \$2,238,302 47, of which the sum of \$526,185.00 was received for Stock issued under the fifth section of chapter fifteen of the Act of 1864, entitled, "An Act to aid and encourage enlistments into the Maryland Regiments in service in the United States," creating a fund for the payment of bounties to Volunteers, leaving the true amount collected from the ordinary sources of revenue to be \$1,712,117.47, and showing a deficiency in the revenue, as compared with that from similar sources in the preceding year, of \$157,988.25. This deficit was occasioned by a decrease of the taxes from twenty-five to fifteen cents on every hundred dollars worth of assessable property, (the State tax being five cents, and the bounty tax ten cents,) the reduction of the tax on collateral inheritances, distributive shares and legacies from two and a half to one and a half per centum on every hundred dollars, a change in the tax on commissions allowed to Executors and Administrators from one-tenth to one-twentieth part of the sum allowed. and the removal of the tax on commissions of Trustees and Receivers, which will be more clearly illustrated by the following statement:

Gross receipts from all sources, including Defence Loan, for the present fiscal year,.....	\$2,238,302 47
Gross receipts for preceding year ending 30th September, 1863,.....	1,870,105 72
Excess,.....	<hr/> \$368,196 75
Proceeds of Maryland Defence Loan, under Act of 1864, chapter 15,.....	\$526,185 00
Leaving a deficiency in revenue from ordinary sources of.....	157,988 25
	<hr/> <hr/> \$526,185 00

The sum received during the fiscal year of 1864, inclusive of the amount derived under the Defense Loan, is.....	\$2,238,302 47
Add balance on hand on 30th September, 1863,.....	1,030,527 47
	<hr/>
	\$3,268,829 94
The disbursements for the present fiscal year, as per Statement "B," amount to.....	2,391,930 61
	<hr/>
Amount in the Treasury proper on 30th September, 1864, as per Statement "B,"	\$876,899 33
Amount to the credit of the Free Schools Fund, as per Statement "E,"	27,417 47
Amount to the credit of the Sinking Fund, as per Statement "F,"	116,037 39
	<hr/>
Total amount of Cash in the Treasury on the 30th September, 1864,.....	<u><u>\$1,020,354 19</u></u>

The payments to the Volunteers, under the Acts of 1864, chapters 15, 246 and 373, since 22nd March last to 30th September, 1864, amounted in the whole to the sum of \$1,281,668.90; exceeding by the sum of \$755,483.90 the amount realized by the issue and sale of stock authorized for the payment of the said bounties, from which latter sum deduct the sum of \$195,198.98 realized for bounty taxes received from Collectors in the counties and city of Baltimore, and taxes on incorporated institutions and taxes on stocks, and there will still be a balance of \$560,286.92 paid out of the Treasury over and above the amount received for the stock issued, and all other sources of revenue under the Act of 1864, aforesaid. This is exhibited by the following figures:

Payments to Volunteers, for bounties, as per Statement "L,"	\$1,281,668 90
Received for stock issued under Act of 1864,.....	\$501,000 00
Premium on same, (average over 5 per cent.),.....	25,185 00
	<hr/>
	526,185 00
Excess of payment over and above stock issued,.....	<hr/>
	\$755,483 90
Amount received from Bounty Tax, (10 cts.,) from Collectors in the Counties and City of Baltimore,.....	\$163,012 56

Amount received for taxes on Incorporated Institutions,....	12,968 88	
Do. for taxes on State and other Stocks,.....	19,217 54	
		<hr/> 195,196 98

Leaving this balance paid by
the Treasury,..... \$560,286 92
on account of bounties, over and above receipts for Stocks
and Bounty Taxes under Acts of 1864.

The Act of 1864, chapter 285, passed on the 7th March, 1864, provided for the reduction of the amount of stocks of the State now held to the credit of the sinking fund. The whole sinking fund amounted on 30th September, 1863, to \$5,664,168.55, being composed of six, five, four and a half, and three per cent. stocks. The amount cancelled under the said Act of 1864, was \$4,509,074.51, leaving a balance to the credit of the sinking fund of \$1,155,094.04 uncanceled, as a subsisting debt, composed of \$1,000,544.04 of 5 per cent. State stock, and \$154,550.00 of Baltimore city 6 per cent. stock, as is more fully shown by Statement "K," of this Report. The stock cancelled, was that which became due at the shortest dates, and that which was overdue. The stock overdue and redeemed during the fiscal year was \$3,000. This amount in the sinking fund of \$1,000,544.04, has been increased, by the purchase during the fiscal year of \$79,369.24 worth of stock, of which \$6,769.24 has been cancelled, and is included in the above sum of \$4,509,074.51, leaving \$72,600.00 the proceeds of fifteen thousand pounds sterling bonds converted at \$4.84 into currency stock, under the Act of 1847, chapter 41, which latter sum, with the Baltimore city stock and the State stock uncanceled, make the total amount in stock, (exclusive of cash,) to the credit of the sinking fund at the end of the fiscal year, of \$1,227,694.04, drawing interest as a subsisting indebtedness of the State. To this latter sum add the cash, and it will make the actual amount in the sinking fund on 30th September, 1864, of \$1,343,731.43, composed of the following items, viz:

State stock, uncanceled,.....	\$1,000,544 04
Baltimore city 6 per cent ,.....	154,550 00
Sterling Bonds, converted,.....	72,600 00
Cash,.....	116,037 39

\$1,343,731 43

It will be perceived from Statement "E," that there is a deficiency in the Free School Fund of \$19,955.52 for this present year, as compared with the one immediately preceding. The receipts for 1863, being \$95,654.41; and those for 1864, \$75,698.89. This fund arising chiefly from the imposition of a tax of twenty cents on every hundred dollars of the capital stock of the banks of the State, as provided for by the

seventh section of a supplement to the Act of 1813, chapter 122, entitled, "An Act to incorporate a company to make a Turnpike Road leading to Cumberland, and for the extension of the charters of the several banks in the city of Baltimore, and for other purposes." The deficiency has been occasioned by reason of a demand which was made by the former Comptroller, upon the several banks, for the payment of this tax in advance, *on the first day of each year*, by which he succeeded in collecting, and embracing within the fiscal year of 1863, the taxes for the years 1862 and 1863. The banks at that time paid this tax in advance, protesting that they were not required so to do by the Acts of the General Assembly, and that their present payment should not be construed as a *precedent* for their future action. A similar demand was made by me, and the most of the banks refused to pay, upon the ground that the course established in this department before my immediate predecessor came into office, was the proper one, and that this demand for the payment of this tax *in advance*, could not be enforced at law. I have left the matter to be adjusted by the proper tribunal for the adjudication of such questions, or by further legislation.

The other surces of revenue for the support of the Schools, consisting of the surplus revenue received from the United States Government in 1836, and of the dividends on stock held by the several counties in the banks of the State, being fixed and permanent as specified in Statements "E" and "G," have been distributed and paid to the counties entitled thereto, in accordance with the principles of distribution established by the Acts of Assembly directing the same.

There has been no receipts from the Annapolis and Elk Ridge Rail Road Company, their profits having been absorbed in the repairs of their road, and the purchase of rolling stock, as represented in their semi-annual reports. Although their revenues have largely increased within the present year, there seems to be little probability, under the construction of the several Acts of Assembly relied on by this corporation, that the State will ever be reimbursed for even the interest on the advances made in its behalf. I would respectfully call the attention of the Legislature to the 2nd, 3rd, 4th and 5th sections of the Act of 1841, chapter 168, passed on the 1st of March, 1842, and the ambiguity of the language employed therein, giving rise to all the difficulties that have been experienced by the present and former officers of the State. The character of these difficulties have been so particularly alluded to in the report of my predecessor, as to supersede the necessity of their repetition. If the construction of the officers of the company be further acquiesced in, then the State revenues will be made tributary to, and available for the payment, not only of the interest, but the ultimate redemption of the bonds of a company in which she has invest-

ed large sums, and from which there is little or no probability of her receiving any benefit.

The receipts from the Baltimore and Ohio Rail Road Company have been very satisfactory, and are largely in excess of the year 1863. The total receipts realized by the State amounts to the sum of \$412,902.23, being equivalent to ten per cent. upon the stock held by the State in the Main Stem and Washington Branch of this road, as shown by the items contained in Statement "A" of this report. This is the highest testimonial that could be given to the able and efficient management of this work—especially in a crisis like the present, when the road has been subjected to such heavy losses by the enemies of our Government. I could not add any suggestions, if I were disposed, to the manner in which its affairs are conducted under its present administration, contributing so largely and efficiently as it has done to sustain the credit and finances of the State. While it is a work in the prosperity of which every Marylander should feel a pride, it is equally a matter of sincere congratulation that, irrespective of all party considerations, it has fallen into the hands of judicious men, who have made it so beneficial at this period to the people of the city of Baltimore and the State generally.

The Northern Central Railway has paid her interest, as required by the terms of the mortgage of the 27th January, 1855, except a sum withheld for the payment of a tax claimed by the State of Pennsylvania. I remonstrated against this course, and advised the officers of this corporation that such a deduction would not be submitted to. A further correspondence had not terminated in any adjustment of the matter at the time when I was compelled to relinquish this office for the fulfillment of the duties of another.

I would also call the attention of the Legislature to the Susquehanna Canal Company. This corporation has paid into the Treasury during the year the sum of \$70,000.00. It is very largely in arrears for interest—the computation of which cannot at present be made on account of the actual rate of exchange being unascertained. When this information is obtained a settlement can be readily affected, as the company has already evinced its willingness to adjust this matter in an amicable manner, which could not for the reason assigned have been accomplished. This company originally consisted of two distinct corporations, known respectively as the Susquehanna Canal and the Tide Water Canal, which were afterwards merged into one, known and recognized under the Act of 1852, chapter 132, as the Susquehanna Canal Company. The original debt of one million of dollars secured by mortgage in pursuance of the Act of 1838, chapter 416, and of the Act of 1843, chapter 363, was due from the corporation, on the first day of January, 1864. The State, under the provisions of the 1st Section of the Act of 1838, chapter 416, has

the privilege of redeeming the bonds then issued in behalf of these corporations at any time after the 1st day of January, 1865. I have no special recommendation to make in regard to this work, as I am convinced that as soon as the rate of exchange can be determined on, a settlement will be effected so as effectually to secure the interest of the State.

The receipts from the several Clerks of Courts in the State for Licenses and other sources of revenue, have been largely in excess of the former year. Those of the present year being \$30,068.85 more, as is shown by table number 1. The returns of these officers have been made with more than usual punctuality, and none of the present incumbents, I am pleased to say, are in arrears for licenses to the State.

In pursuance of Chapter 90 of the Act of 1864, I received through the Executive Department, in May last, from the Commissioners of the General Land Office in Washington City, the land scrip, that had been donated to the State of Maryland under the Act of Congress, passed the 2nd July, 1862, consisting of thirteen hundred and twelve pieces of script, representing, within a fraction of eighty acres, two hundred and ten acres of land, being thirty thousand acres for each Senator and Representative in this State in Congress. The same was immediately deposited by me in the Farmers Bank of Maryland, in this city, for safe keeping. There has been no sales made of this scrip as yet, although numerous applications have been received for its purchase. It has been considered unwise to place it in the market in the present unsettled condition of our national affairs, the prices offered not being reasonable, or such as might be obtained under another and different state of things.

I have estimated, according to Statements E, and D, the receipts and disbursements for the fiscal year ending September 30th, 1865. The receipts, it is supposed, will amount to \$1,550,000.00, and will be exceeded by the disbursements in the sum of five hundred and twenty-five thousand dollars. This latter sum, however, is more than balanced by the amount already in the Treasury, of \$876,899.23, which deducted from the estimated receipts, would leave in the Treasury at the end of the fiscal year, for 1865, the sum of \$351,899.33. The bounty fund as has been heretofore shewn, being in arrear to the Treasury in the sum of \$755,483.90, it would be advisable either to order this amount to be placed at once to the credit of the Sinking Fund, or to issue Bonds therefore, as authorized under the act of 1864, chapter 15.

I would respectfully call the attention of your honorable body to the necessity, at this time, of a general assessment of the property of the State. There has been none since that provided by the Act of 1852, ch. 337. The important changes produced by the events of the past few years, must have so materially affected the valuation of property of all kinds

in all parts of the State, that it is essential for an equalization of the taxes, that the matter should be attended to at the earliest practicable moment.

This Department has frequently experienced difficulties in its settlement with the several Banks and Incorporated Institutions. I would suggest that they hereafter be placed on the same footing as individuals in their accountability with the State.

Their Annual Statements should be made under the oath of the President and Treasurer, or other proper accounting officers, on or before a stated day. Upon their failure, a penalty should be imposed, sufficient to insure the prompt performance of this duty. Their entire capital should be taxed without any deduction except for State or Government Stocks, and they should not, as now practised, be allowed credit for mutual investments, subjecting the State not unfrequently in this manner to considerable loss.

I would also call your attention particularly to the taxes in arrears from the city of Baltimore. They now amount, principal and interest, to the sum of \$328,198.55, and have been accumulating since the year 1848. One of the difficulties, is the claim set up to commissions on arrearages of taxes uncollected. The State is made, from want of a prompt performance of duty on the part of the City Collectors, to suffer a loss, such as is not permitted in other parts of the State. The sections of the 81st Article of the Code of Public General Laws, provides a uniform system for the collection of direct taxes, and I can see no reason why there should be any exception to this general rule. This subject was fully discussed by my immediate predecessor, and I again invite your attention thereto, as one requiring further legislative action to relieve this Department of the embarrassing attitude of permitting (without some effectual mode of preventing it) the accumulation from year to year of these arrearages.

The difficulty is not attributable to the present collector—a most worthy and efficient officer—but arises from the practice which has grown up, by which State matters are controlled by the ordinances of a mere municipal corporation. That these taxes should further accumulate without an adjustment either in an amicable or compulsory mode, will not I suppose be questioned, while prompt action in the matter might remove many difficulties. In connection with this subject, I would refer to the system of refunding taxes, as practised by the Appeal Tax Court of this city, being in direct conflict with the provisions of the Constitution, which forbids the re-payment of taxes once paid, without a special act of your body authorizing the same.

As one of the means of removing the difficulties above adverted to, I would respectfully recommend that the city of Baltimore be divided into three separate collection districts,

as laid down under the provisions of the Constitution for the representation of Members of the General Assembly, and that a Collector be appointed by the city authorities for each of said districts, subject to the same regulations provided for the collection of taxes in other parts of the State.

The receipts from auction duties have never amounted, in any one year, to the sum of twenty thousand dollars. The State not receiving any revenue until they exceed this sum, I would suggest a change in the law requiring the auctioneers, after paying for their licenses, to account with and pay over all auction duties to some officer of the city of Baltimore. The receipts under the present system, being paid into the Treasury are withdrawn immediately afterwards by the city authorities, upon a statement furnished from this office, and applied to the improvement of the channel in the Chesapeake Bay and Patapsco River. By this change the unnecessary trouble and labor of being, as it were, the accountant between the auctioneers and the authorities of the city, would be avoided.

The receipts from the Inspection of Tobacco during the fiscal year for 1863, was \$28,096.68. This, as compared with the present year, amounting to \$14,643.91, shows an excess of \$13,452.77 for 1863 over 1864. The salaries of the five Inspectors increased by the last Legislature from \$1200 to 2500, for part of the year 1864, made the payment for this item alone \$7,991.85, which with the insurance and ground rents, left the nett profits small as compared with those of preceding years. The erection of State Warehouses for the storage of Tobacco was commenced as early as the year 1826, since which time the State has freely loaned her credit for the purchase of real estate, wharves and the erection of other suitable buildings for the accommodation of the wants of the producers of this staple. A distinct fund has been created known as the "Tobacco Fund Debt," under the Acts of 1835, ch. 350; 1842, ch. 310; 1845, ch. 97; 1846, ch. 348; and of 1853, ch. 381, which exists as a subsisting indebtedness, amounting to \$198,689.97. The revenue arising annually from these Inspectors have not been sufficient to extinguish the interest, while there is not even a remote probability of the debt ever being liquidated in this manner. Under these circumstances, I submit the matter for your consideration, whether this unproductive property, consisting of wharves, warehouses and a leasehold interest should not be disposed of, and the present system abandoned for another based upon a similar footing with that pursued in the sale and purchase of other agricultural products. The system of inspections and the present mode of appointing Inspectors, need not be repealed, but the State should be no further connected with the management thereof, than to receive the taxes on their commissions, the excess of their fees of office, leaving the purchase of all neces-

sary buildings and other matters for the proper prosecution of this trade to individual enterprise. This department would be saved the unnecessary labor of examining, auditing and preserving the annual accounts of the several Inspectors, and the people of the State benefitted by a separation from all systems of this kind. Our financial operations would be less complicated and more productive. The fostering of one branch of industry to the prejudice of another should never be encouraged, but all alike should, after the reception of the State's assistance in their incipient efforts, be left to their own unaided exertions for support.

The receipts from the Inspection of Grain have increased since the modification of the original law made on the 8th day of March, 1864. Although not sufficient to pay the salaries of the officers in full, it has been such as to warrant the probability that after our commercial difficulties shall have ended a revenue will be received more than sufficient to pay all expenses and salaries. The gross amount of receipts returned for the fiscal year of 1864, was \$6,435.90, from which, after deducting \$884.53 for expenses, there was left applicable to the payment of the salaries of the Inspector General, and four Inspectors, \$5,591.91.

During the present year, there has been imposed upon this Department by the Acts of 1864, chapters 15, 246 and 373, the payment of bounties to Volunteers in the service of the United States. The enlistments were made up of white persons, free colored and others of African descent, formerly slaves. The sums due the two former have been paid to the Commissioners of the several counties, and the Register of Baltimore city, upon their drafts, to be disbursed by them, while the latter—the slaves—have been paid either in person at this office, or by our agent. The sums expended for these respective Volunteers are shewn by Statement L, to amount to \$1,281,668.90. Since the end of the fiscal year an adjustment with our agent, Dr. John F. Kurtz, of Dorchester county, who was sent to pay off those of the 19th, 30th and 39th Regiments, representing the slaves who were then either in actual service or in hospitals, exhibits the fact, that out of the whole return of 1400 men to this office, 741 could not be found, leaving 659 who were found and to whom have been paid their cash bounties, amounting to \$32,950, of which \$2,450 were paid in person at this office and \$30,500 by my agent, as will be seen by a note appended to table No. 24. The manner in which our agent performed his trust was highly satisfactory. I am convinced a considerable sum was thus saved, which under the usual course of powers of Attorney might have been either lost to the State or to those who were intended to be the recipients of this bounty. The difficulty arising upon the death of this class of Volunteers was early foreseen, and I steadily refused to pay, unless satisfied of their

actual existence and identity. That a large number have been killed, it is to be supposed from the report of our agent unless they have been transferred to other branches of the service. The wives and children of many of these colored Volunteers, if slaves, are, upon the death of the Volunteer, under the provisions of the 2nd section of the Act of 1864, chapter 15, excluded from its benefit. As all slaves have been released from servitude, there should be a repeal of this section. I have also experienced difficulties in the Constitution of the same section in regard to white Volunteers, the unpaid bounty, in the event of death, being limited to the wife or the legal representative of the infant children. I would advise a similar modification of this section, so that the mother, father, brother, sister or next of kin may be the recipient of a bounty so worthily won by those whose lives have been given in defence of the institutions of their country. Returns have been made to this Department through the Executive of the rolls of all the Regiments raised in this State, except those composed principally of former slaves. Of these latter, incomplete parts of the 19th, 30th and 39th Regiments were received early in May last. Since then no additional returns have been made by the United States officers, and this Department has been effectually deprived of the power to accomplish more than it has done in the payment of the former master and the slave Volunteer. However much this is to be regretted, no fault is imputable to any of the State Departments, as the parties whose names are borne on these rolls could not be paid until they were certified to by the proper officer of the United States, as being credited as a part of the quota of Maryland, and then sent to the Executive and transmitted by him to us for payment. I am not aware who is to blame, but the fact is undeniable that none of the rolls of the remaining slave regiments have been received for the past six months. Both the masters and the Volunteers have thus been deprived of the bounty, which the Treasury has always been prepared to pay.

The rolls returned of the *free colored* volunteers, being found to contain so many errors, I refused payment of the drafts of the City Register and County Commissioners, unless certified, as containing the names of those ascertained to be free. Notwithstanding this precaution, I have in some instances, upon the faith of their certificates, paid to County Commissioners in some of the Counties, and the Register of Baltimore city, bounties for those represented *as free* who were afterwards proven to be slaves. This Department was thus compelled to pay twice the cash bounties for the same volunteers. These errors in the representation of the City Register and County Commissioners, I have sought without success to have corrected, demanding that a re-payment be made into the Treasury, as the 7th section of said Act, devolves upon them the responsibility of a proper disbursement

of the funds entrusted to them. A statement thereof is prepared and embraced in the appendix to this Report. I would ask that some effectual legislation be had to enforce the correction of these errors, and to compel the authorities of the City of Baltimore and the Commissioners of the several Counties to make report generally under oath of their proceedings in disbursement of these bounties, shewing to whom, when and in what manner they have been paid. The labors connected with this branch of the duties of this office, have been onerous, and such as justifies the employment of an additional clerk, which I respectfully recommend.

I would also advise the appointment of a special agent for the payment of all unpaid bounties, who shall give bond, return all properly certified rolls, and make quarterly statements under oath to this Department. This would ensure the prompt receipt by the volunteer of his money, and relieve this Department of many oft-repeated and vexatious enquiries, as to matters over which they have no control.

The collection of the taxes due from institutions for manufacturing and mining purposes, has been accompanied with much difficulty. This arises from want of accurate information as to the amount of their capital, date of incorporation and places of business, enabling many of them to evade the payment of their just dues to the State. The clerks of the cities and counties of the State, should be required, under a penalty, to make and transmit to this Department annually a detailed list or statement under oath of all such institutions as have been incorporated under the 40th section of Article 26th of the Code of Public General Laws.

During my short official career, a number of old cases of indebtedness, accumulating from year to year, have been settled. I have caused to be brought up to the close of the fiscal year, on a docket, copies of the court entries in all suits that have been instituted by the State, affording a ready mode of ascertaining the condition of each particular one. Many of them, I find to be hopelessly insolvent, both principal and sureties being dead, and their estates closed up, excluding all hope of recovery by the State. Some disposition should be made of such claims, of which a list will be furnished at your request by my successor.

I have this day surrendered this office for the purpose of fulfilling the duties of another, to which I have been recently elected; and while acknowledging the pleasant and agreeable character of my official intercourse with all the Departments of the State; I have the gratification to know that I leave the Treasury Department in a prosperous condition, and that the affairs of this office are to be transferred into the hands of a worthy and competent successor.

All of which is respectfully submitted,

HENRY H. GOLDSBOROUGH.

A P P E N D I X .

APPENDIX.

STATEMENT A.

A Statement showing the Total Receipts into the Treasury in the Fiscal Year ended 30th September, 1864, to have been \$2,238,302.47; which, added to the balance in the Treasury as of 30th September, 1863, will make the aggregate in the Treasury, during the Fiscal Year, \$3,268,829.94.

There was received in the Treasury in the year ended 30th September, 1864, the sum of \$2,238,302.47, on the following accounts, viz:	
Auction Duties,.....	\$7,992 49
Bank Stock—for Dividends.....	29,976 27
Baltimore and Ohio Rail Road Company—Dividends Main Stem,.....	91,793 60
Baltimore and Ohio Rail Road Company—Dividends Washington Branch,.....	56,650 00
Baltimore and Ohio Rail Road Company—Capitation Tax,.....	219,386 13
Baltimore and Ohio Rail Road Company—Interest on Dividend Bond,.....	600 00
